ALEX BARTH, Ph.D.

Email: alex.barth.science@gmail.com ORCID: 0000-0001-7154-6260 TheAlexBarth.Github.io

RESEARCH EXPERIENCE

2024-	Postdoctoral Researcher, University of Texas, Marine Science Institute + Statistics & Data Science
	Advisors: Dr. Jordan Casey & Dr. Mevin Hooten
2019-2024	Graduate Research Assistant, Stone Zooplankton Ecology Lab, University of South Carolina
	Advisor: Dr. Joshua Stone
2017-2019	HAB Sampling Technician, Southern California Coastal Ocean Observing System, Cal Poly
	Center for Coastal Marine Science.
	Advisors: Dr. Alexis Pasulka, Dr. Ryan Walter
2018-2019	Student Research Assistant, Common Garden reciprocal cross of K. kelletii, Cal Poly
	Adivsor: Dr. Crow White
2017	Senior Research Project, Investigating a trophic cascade in the upper subtitle
	Wrigley Institute, Catalina Island. Advisor: Dr. Chris Lowe
2017	Summer Research Assistant, Fishes of Texas, University of Texas at Austin
	Advisors: Adam Cohen, Dr. Dean Hendrickson

EDUCATION

Ph.D. Biological Sciences, Ecology University of South Carolina	2024
B S Marine Science Minor Statistics	2019

Cal Poly, San Luis Obispo

TEACHING & OUTREACH EXPERIENCE

Instructor of Record

Fall 2023 Principles of Ecology Lab, University of South Carolina (BIOL570L)

Archived Course Materials

Workshops, Lectures, & Training Modules

Fall 2024 Spooky Statistics, University of Texas MSI

A halloween-themed introduction to Bayesian statistics.

Graduate Teaching Assistant (Lab Instructor)

Spring 2023 Invertebrate Zoology, USC (MSCI510L)
Spring 2020 - Fall 2022 Ecology & Ecology Lab, USC (BIOL301L)
Fall 2019 Introduction to Biology Lab, USC (BIOL101L)

Undergraduate Student Mentorship

2024- Louis Stokes Alliance for Minority Participation (LSAMP), Texas A&M Corpus Christi, Student

Co-Advised with Dr. John Majoris.

Project: Community structure and biomass of mesozooplankton in the Mission-Aransas Estuary.

Louis Stokes Alliance for Minority Participation Summer Research Academy, University of Texas

Project: Changes in plankton biodiversity following salinity regime shifts

2022-2023 Magellan Scholar Program, University of South Carolina

Project: Characterizing trichodesmium patterns in oligotrophic oceans through in-situ imaging

Guest Lectures

2024 Summer

Fall 2024 MNS101: Undergraduate Seminar in Marine Science, UT Austin

Fall 2022 CSCE585: Machine Learning Systems, USC Fall 2020 Ocean Sampling Techniques, Cal Poly

Outreach Programs

2020-2022 PlanktoScope development and outreach program, University of South Carolina and North

Inlet-Winyah Bay National Estuarine Research Reserve

2018-2019 Outreach Diver, Dive Beneath the Surface, Cal Poly 2018, 2019 Group Instuctor, Learn by Doing Lab Cal Poly

2016 Informal Education Assistant, Greater Cleveland Aquarium

GRANTS & AWARDS

PIs: Dr. Jordan Casey, Dr. Mevin Hooten. Co-investigators: Dr. Alex Barth*, Dr. Zach Olson. Untangling food webs along the Texas Gulf Coast to predict the future of estuarine ecosystems. * co-wrote proposal with Drs. Casey & Hooten. 2024 Jeffery Barnsdale Memorial Fellowship, University of South Carolina, \$1,000 2023 Graduate Travel Grant, University of South Carolina, \$500 2023-2024 FlowCam Graduate Research Grant, Equipment and Travel Using FlowCam to characterize microplankton communities following intense rainfall events 2023 Elsie Taber Fellowship, University of South Carolina, \$2,500 2023 Graduate Travel Grant, University of South Carolina, \$800 2023 Slocum Lunz Foundation, \$1,130 A combined experimental-observational approach to measure whole-community responses to storm events in estuaries 2022 Elsie Taber Fellowship, University of South Carolina, \$2,980 Collaborative Research with NOAA Pacific Islands Fisheries Science Center 2021-2022 SPARC Graduate Research Grant, \$4,979 Establishing community-based science monitoring of zooplankton communities' response to harmful algae through low-cost imaging tools 2019-2023 Presidential Fellowship, University of South Carolina, \$40,000 University-wide fellowship for top doctoral students 2019, 2021 NSF GRFP, Hononable Mention (2x) Frost Student Research Award, \$500 A common-garden, reciprocal cross of K. kelletii	2024-2025	Impact 2075, Texas Gulf Coast Research Center, \$249,947		
* co-wrote proposal with Drs. Casey & Hooten. 2024		PIs: Dr. Jordan Casey, Dr. Mevin Hooten. Co-investigators: Dr. Alex Barth *, Dr. Zach Olson.		
* co-wrote proposal with Drs. Casey & Hooten. 2024		Untangling food webs along the Texas Gulf Coast to predict the future of estuarine ecosystems.		
Graduate Travel Grant, University of South Carolina, \$500 2023-2024 FlowCam Graduate Research Grant, Equipment and Travel Using FlowCam to characterize microplankton communities following intense rainfall events Elsie Taber Fellowship, University of South Carolina, \$2,500 Craduate Travel Grant, University of South Carolina, \$800 Slocum Lunz Foundation, \$1,130 A combined experimental-observational approach to measure whole-community responses to storm events in estuaries Elsie Taber Fellowship, University of South Carolina, \$2,980 Collaborative Research with NOAA Pacific Islands Fisheries Science Center SPARC Graduate Research Grant, \$4,979 Establishing community-based science monitoring of zooplankton communities' response to harmful algae through low-cost imaging tools Presidential Fellowship, University of South Carolina, \$40,000 University-wide fellowship for top doctoral students NSF GRFP, Hononable Mention (2x) Frost Student Research Award, \$500		* co-wrote proposal with Drs. Casey & Hooten.		
FlowCam Graduate Research Grant, Equipment and Travel Using FlowCam to characterize microplankton communities following intense rainfall events Elsie Taber Fellowship, University of South Carolina, \$2,500 Graduate Travel Grant, University of South Carolina, \$800 Slocum Lunz Foundation, \$1,130 A combined experimental-observational approach to measure whole-community responses to storm events in estuaries Elsie Taber Fellowship, University of South Carolina, \$2,980 Collaborative Research with NOAA Pacific Islands Fisheries Science Center SPARC Graduate Research Grant, \$4,979 Establishing community-based science monitoring of zooplankton communities' response to harmful algae through low-cost imaging tools Presidential Fellowship, University of South Carolina, \$40,000 University-wide fellowship for top doctoral students NSF GRFP, Hononable Mention (2x) Frost Student Research Award, \$500	2024	Jeffery Barnsdale Memorial Fellowship, University of South Carolina, \$1,000		
Using FlowCam to characterize microplankton communities following intense rainfall events Elsie Taber Fellowship, University of South Carolina, \$2,500 Graduate Travel Grant, University of South Carolina, \$800 Slocum Lunz Foundation, \$1,130 A combined experimental-observational approach to measure whole-community responses to storm events in estuaries Elsie Taber Fellowship, University of South Carolina, \$2,980 Collaborative Research with NOAA Pacific Islands Fisheries Science Center SPARC Graduate Research Grant, \$4,979 Establishing community-based science monitoring of zooplankton communities' response to harmful algae through low-cost imaging tools Presidential Fellowship, University of South Carolina, \$40,000 University-wide fellowship for top doctoral students NSF GRFP, Hononable Mention (2x) Frost Student Research Award, \$500	2023	Graduate Travel Grant, University of South Carolina, \$500		
Elsie Taber Fellowship, University of South Carolina, \$2,500 Graduate Travel Grant, University of South Carolina, \$800 Slocum Lunz Foundation, \$1,130 A combined experimental-observational approach to measure whole-community responses to storm events in estuaries Elsie Taber Fellowship, University of South Carolina, \$2,980 Collaborative Research with NOAA Pacific Islands Fisheries Science Center SPARC Graduate Research Grant, \$4,979 Establishing community-based science monitoring of zooplankton communities' response to harmful algae through low-cost imaging tools Presidential Fellowship, University of South Carolina, \$40,000 University-wide fellowship for top doctoral students NSF GRFP, Hononable Mention (2x) Frost Student Research Award, \$500	2023-2024	·		
2023 Graduate Travel Grant, University of South Carolina, \$800 2023 Slocum Lunz Foundation, \$1,130 A combined experimental-observational approach to measure whole-community responses to storm events in estuaries 2022 Elsie Taber Fellowship, University of South Carolina, \$2,980 Collaborative Research with NOAA Pacific Islands Fisheries Science Center 2021-2022 SPARC Graduate Research Grant, \$4,979 Establishing community-based science monitoring of zooplankton communities' response to harmful algae through low-cost imaging tools 2019-2023 Presidential Fellowship, University of South Carolina, \$40,000 University-wide fellowship for top doctoral students 2019, 2021 NSF GRFP, Hononable Mention (2x) Frost Student Research Award, \$500		Using FlowCam to characterize microplankton communities following intense rainfall events		
Slocum Lunz Foundation, \$1,130 A combined experimental-observational approach to measure whole-community responses to storm events in estuaries 2022 Elsie Taber Fellowship, University of South Carolina, \$2,980 Collaborative Research with NOAA Pacific Islands Fisheries Science Center 2021-2022 SPARC Graduate Research Grant, \$4,979 Establishing community-based science monitoring of zooplankton communities' response to harmful algae through low-cost imaging tools 2019-2023 Presidential Fellowship, University of South Carolina, \$40,000 University-wide fellowship for top doctoral students 2019, 2021 NSF GRFP, Hononable Mention (2x) Frost Student Research Award, \$500	2023	Elsie Taber Fellowship, University of South Carolina, \$2,500		
A combined experimental-observational approach to measure whole-community responses to storm events in estuaries 2022 Elsie Taber Fellowship, University of South Carolina, \$2,980 Collaborative Research with NOAA Pacific Islands Fisheries Science Center 2021-2022 SPARC Graduate Research Grant, \$4,979 Establishing community-based science monitoring of zooplankton communities' response to harmful algae through low-cost imaging tools 2019-2023 Presidential Fellowship, University of South Carolina, \$40,000 University-wide fellowship for top doctoral students 2019, 2021 NSF GRFP, Hononable Mention (2x) Frost Student Research Award, \$500	2023	Graduate Travel Grant, University of South Carolina, \$800		
events in estuaries Elsie Taber Fellowship, University of South Carolina, \$2,980 Collaborative Research with NOAA Pacific Islands Fisheries Science Center SPARC Graduate Research Grant, \$4,979 Establishing community-based science monitoring of zooplankton communities' response to harmful algae through low-cost imaging tools Presidential Fellowship, University of South Carolina, \$40,000 University-wide fellowship for top doctoral students NSF GRFP, Hononable Mention (2x) Frost Student Research Award, \$500	Slocum Lunz Foundation, \$1,130			
Elsie Taber Fellowship, University of South Carolina, \$2,980 Collaborative Research with NOAA Pacific Islands Fisheries Science Center SPARC Graduate Research Grant, \$4,979 Establishing community-based science monitoring of zooplankton communities' response to harmful algae through low-cost imaging tools Presidential Fellowship, University of South Carolina, \$40,000 University-wide fellowship for top doctoral students NSF GRFP, Hononable Mention (2x) Frost Student Research Award, \$500		A combined experimental-observational approach to measure whole-community responses to storm		
Collaborative Research with NOAA Pacific Islands Fisheries Science Center SPARC Graduate Research Grant, \$4,979 Establishing community-based science monitoring of zooplankton communities' response to harmful algae through low-cost imaging tools Presidential Fellowship, University of South Carolina, \$40,000 University-wide fellowship for top doctoral students NSF GRFP, Hononable Mention (2x) Frost Student Research Award, \$500		events in estuaries		
2021-2022 SPARC Graduate Research Grant, \$4,979 Establishing community-based science monitoring of zooplankton communities' response to harmful algae through low-cost imaging tools 2019-2023 Presidential Fellowship, University of South Carolina, \$40,000 University-wide fellowship for top doctoral students 2019, 2021 NSF GRFP, Hononable Mention (2x) Frost Student Research Award, \$500	2022	Elsie Taber Fellowship, University of South Carolina, \$2,980		
Establishing community-based science monitoring of zooplankton communities' response to harmful algae through low-cost imaging tools 2019-2023 Presidential Fellowship, University of South Carolina, \$40,000 University-wide fellowship for top doctoral students NSF GRFP, Hononable Mention (2x) Frost Student Research Award, \$500		Collaborative Research with NOAA Pacific Islands Fisheries Science Center		
algae through low-cost imaging tools Presidential Fellowship, University of South Carolina, \$40,000 University-wide fellowship for top doctoral students NSF GRFP, Hononable Mention (2x) Frost Student Research Award, \$500	2021-2022	SPARC Graduate Research Grant, \$4,979		
2019-2023 Presidential Fellowship, University of South Carolina, \$40,000 University-wide fellowship for top doctoral students 2019, 2021 NSF GRFP, Hononable Mention (2x) 2019 Frost Student Research Award, \$500		Establishing community-based science monitoring of zooplankton communities' response to harmful		
University-wide fellowship for top doctoral students 2019, 2021 NSF GRFP, Hononable Mention (2x) 2019 Frost Student Research Award, \$500		algae through low-cost imaging tools		
2019, 2021 NSF GRFP, Hononable Mention (2x) 2019 Frost Student Research Award, \$500	2019-2023	Presidential Fellowship, University of South Carolina, \$40,000		
Frost Student Research Award, \$500		University-wide fellowship for top doctoral students		
	2019, 2021	NSF GRFP, Hononable Mention (2x)		
A common-garden, reciprocal cross of K. kelletii	2019	Frost Student Research Award, \$500		
		A common-garden, reciprocal cross of K. kelletii

PRESENTATIONS & SEMINARS

Saminare	Q,	Invited Talk	
Seminars	\sim	inviied taik:	٠.

2017

Feb 2024 Doctoral Defense Seminar

Title: Illuminating the mesopelagic through in-situ imaging of plankton communities.

Dec 2023 USC Ecology Seminar

Title: Microplankton responses to intense rainfall events.

Mar 2023 Invited Seminar, British Antartic Survey, Cambridge UK

Title: Plankton Paparazzi: How can in situ imaging reveal new patterns in plankton ecology?

April 2022 USC Presidential Fellows Seminar

Title: Plankton control the world: New ways to understand the global overlords.

Feb 2022 USC Ecology Seminar

Title: *Plankon from the great blue to our local shores*

Jun 2021 USC Ecology Seminar

Title: Ocean Monsters: Giant protists and their role in zooplankton communities

Conference & Workshops

OSM 2023 Barth A. Smith E. Pinckney J. Krask J. Stone J. Determining the impact of severe rain events on

phytoplankton communities through HPLC & FlowCam. Oral Presentation.

CERF 2023 Barth A. Stone J. A combined observational-experimental approach to identify the influence of

rain on plankton communities. Oral Presentation.

ASLO 2023 Stone JP. Barth AJ. Rykaczewski R. Wren J. Effects of the ETNP oxygen deficient zone on

zooplankton communities and vertical migration. Co-author.

ASLO 2023 Barth AJ. Stone JP. Occupancy modelling of imagery data can reveal zooplankton vertical

patterns and patchiness. Oral Presentation.

UVP User Meeting, Ville-

france 2022

Barth AJ. EcotaxaTools: an open-source R. package for managing Ecotaxa data. Oral

Presentation.

UVP User Meeting, Ville-

france 2022

Barth AJ. Stone JP. UVP5HD comparisons to MOCNESS zooplankton abundance estimates and

other observations from over a year of deployments in the Sargasso Sea.

International Conference on Copepoda 2022

Barth AJ. Stone JP. Migrator Morphology: In situ observations of copepod diel vertical migration.

Oral Presentation.

SEERS 2022 Barth AJ. Stone JP. Improving citizen science phytoplankton monitoring thorugh a low-cost,

open-source imaging device. Poster

OSM 2022 Pasulka AL. Walter RK. Barth AJ. Gilbert J. Robbins IR. Phytoplankton phenological shifts as

indicators of oceanographic change in Central California. Co-author.

PlankoScope Workshop

2021

Barth AJ. PlanktoScope Progress and Plans. Oral Presentation.

ASLO 2021 Stone JP. Barth AJ. In-situ quantification of zooplankton around the oxygen minimum zone in

the Sargasso Sea. Co-author.

ASLO 2021 Barth AJ. Stone JP. Quantifying Rhizaria abundance and ecology in the oligotrophic ocean. Oral

Presentation

OSM 2020 Barth AJ. Walter RK. Robbins IR. Pasulka AL. Seasonal and interannual variability of

phytoplankton abundance and community composition on the Central Coast of California. Poster.
